

SMAART Minds - Reports Documentation

Version: 1.0
Date: January 2026
Platform: SMAART Minds - Student Dashboard & Learning Management System

1. Overview

This document describes the reporting capabilities within the SMAART Minds platform, including available reports, data sources, and report generation procedures.

2. Assessment Reports

2.1 Base Line Test Report (ASM00001)

Purpose: Initial assessment to establish student baseline capabilities.

Report Components

Component	Description	Data Source
Total Score	Points achieved out of 300	<code>baselinerequests.score</code>
Percentage	Overall accuracy percentage	<code>baselinerequests.percentage</code>
Completion Date	When test was completed	<code>baselinerequests.completedAt</code>
Question Analysis	Per-question response details	<code>results.responses</code>

Sample Report Data Structure

```
{
  "userId": "ObjectId",
  "assessmentCode": "ASM00001",
  "score": 235,
  "totalScore": 300,
  "percentage": 78.33,
```

```
"completedAt": "2026-01-10T15:30:00Z",
"responses": [
  {
    "questionId": "ObjectId",
    "selectedValue": "A",
    "isCorrect": true,
    "score": 1
  }
]
```

2.2 Emotional Quotient (EQ) Report

Purpose: Measure emotional intelligence levels.

Report Components

Component	Description
Overall EQ Score	Composite emotional intelligence score
Self-Awareness	Recognition of own emotions
Self-Regulation	Managing emotional responses
Motivation	Internal drive and goal orientation
Empathy	Understanding others' emotions
Social Skills	Relationship management capabilities

2.3 AI Quotient (AIQ) Report

Purpose: Assess aptitude for artificial intelligence concepts.

Report Components

Component	Description
AIQ Score	Overall AI aptitude
Logical Reasoning	Problem-solving capabilities
Pattern Recognition	Identifying data patterns

Computational Thinking	Algorithm understanding
------------------------	-------------------------

2.4 Social Quotient (SQ) Report

Purpose: Evaluate social interaction skills.

Report Components

Component	Description
SQ Score	Overall social aptitude
Communication	Verbal/non-verbal skills
Collaboration	Team working ability
Networking	Relationship building

2.5 Creativity Quotient (CQ) Report

Purpose: Measure creative thinking abilities.

Report Components

Component	Description
CQ Score	Overall creativity measure
Fluency	Idea generation volume
Flexibility	Diverse thinking patterns
Originality	Novel approach frequency
Elaboration	Idea development depth

2.6 Adversity Response Quotient (ARQ) Report

Purpose: Assess resilience and stress management.

Report Components

Component	Description
-----------	-------------

ARQ Score	Overall resilience measure
Control	Perceived influence over events
Ownership	Responsibility acceptance
Reach	Impact limitation ability
Endurance	Persistence duration

2.7 VAK Learning Style Report

Purpose: Identify preferred learning modality.

Report Components

Component	Percentage	Description
Visual	X%	Learning through seeing
Auditory	Y%	Learning through hearing
Kinesthetic	Z%	Learning through doing

2.8 Big Five Personality Report

Purpose: Comprehensive personality assessment based on OCEAN model.

Report Components

Trait	Score Range	Description
Openness	1-100	Creativity and curiosity
Conscientiousness	1-100	Organization and dependability
Extraversion	1-100	Social energy and assertiveness
Agreeableness	1-100	Cooperation and trust
Neuroticism	1-100	Emotional stability

3. Course Progress Reports

3.1 Individual Course Report

Report Components

Field	Description	Data Source
Course Name	Title of enrolled course	<code>courses.title</code>
Enrollment Date	When student enrolled	<code>courseenrollments.enrolledAt</code>
Progress	Completion percentage	<code>courseenrollments.progress</code>
Modules Completed	List of finished modules	<code>courseenrollments.modulesCompleted</code>
Current Module	Active learning module	Calculated
Time Spent	Total learning time	Activity logs
Tasks Completed	Quiz/assignment status	<code>courseenrollments.tasksStatus</code>

Sample Report Data

```
{
  "userId": "ObjectId",
  "courseId": "ObjectId",
  "courseName": "Machine Learning Fundamentals",
  "enrolledAt": "2025-12-01T10:00:00Z",
  "progress": 65,
  "modulesCompleted": ["module1", "module2"],
  "currentModule": "module3",
  "tasksStatus": {
    "module1": { "completed": true, "score": 85 },
    "module2": { "completed": true, "score": 92 },
    "module3": { "completed": false }
  }
}
```

3.2 Overall Learning Progress Report

Purpose: Aggregate view of all course enrollments.

Report Components

Field	Description
Total Courses Enrolled	Count of all enrollments
Courses Completed	Finished courses count
Courses In Progress	Active course count
Average Progress	Mean completion rate
Certificates Earned	Total certificates awarded

4. User Activity Reports

4.1 Activity Log Report

Purpose: Track user engagement and platform usage.

Tracked Activities

Activity Type	Description	Logged Data
LOGIN	User login events	timestamp, device, IP
LOGOUT	User logout events	timestamp, session duration
PAGE_VIEW	Page navigation	page path, duration
ASSESSMENT_START	Test initiation	assessment ID, timestamp
ASSESSMENT_COMPLETE	Test submission	score, time taken
COURSE_ACCESS	Course viewing	course ID, module
VIDEO_WATCH	Video playback	video ID, watch time
POST_CREATE	Community posting	post ID, content type

Sample Activity Log

```
{
  "userId": "ObjectId",
```

```
"sessionId": "uuid",
"activities": [
  {
    "type": "LOGIN",
    "timestamp": "2026-01-10T09:00:00Z",
    "details": {
      "device": "Desktop Chrome",
      "ip": "192.168.1.1"
    }
  },
  {
    "type": "ASSESSMENT_START",
    "timestamp": "2026-01-10T09:05:00Z",
    "details": {
      "assessmentId": "ASM00001"
    }
  }
]
}
```

4.2 Engagement Metrics Report

Metric	Calculation	Purpose
Daily Active Users	Unique logins/day	Usage tracking
Session Duration	Avg time per visit	Engagement depth
Assessment Completion Rate	Completed/Started	Content effectiveness
Course Completion Rate	Finished/Enrolled	Learning success
Community Engagement	Posts + Comments + Likes	Social activity

5. Support Ticket Reports

5.1 Ticket Statistics Report

Purpose: Overview of support ticket system performance.

Report Components

Metric	Description	Query
--------	-------------	-------

Total Tickets	All tickets created	<code>support.count()</code>
Open Tickets	Pending resolution	<code>status: 'open'</code>
In Progress	Being handled	<code>status: 'in-progress'</code>
Resolved	Successfully closed	<code>status: 'resolved'</code>
Closed	Verified complete	<code>status: 'closed'</code>

By Category Breakdown

```
{
  "technical": 45,
  "account": 23,
  "content": 18,
  "billing": 12,
  "feedback": 8,
  "other": 5
}
```

By Priority Breakdown

```
{
  "high": 15,
  "medium": 65,
  "low": 31
}
```

5.2 Resolution Time Report

Metric	Description
Average Resolution Time	Time from creation to resolved
Fastest Resolution	Minimum resolution time
Slowest Resolution	Maximum resolution time
Response Time	Time to first admin response

6. Administrative Reports

6.1 User Registration Report

Purpose: Track new user registrations.

Report Components

Field	Description
Total Registrations	All registered users
Pending Approvals	Status: pending
Approved Users	Status: approved
Rejected Users	Status: rejected
Registrations by Date	Daily/weekly/monthly counts
Registrations by Institution	By college/organization

6.2 Institution Report

Purpose: Multi-tenant institution statistics.

Report Components

Field	Description
Institution Name	College/organization name
Total Students	Registered students count
Active Users	Users with recent activity
Course Enrollments	Total course enrollments
Assessment Completions	Tests completed

7. Skills Passport Report

7.1 Individual Skills Report

Purpose: Comprehensive skill assessment overview.

Report Components

Section	Data Included
Assessment Scores	All quotient test results
Learning Style	VAK preferences
Personality Profile	Big Five traits
Course Skills	Acquired competencies
Certificates	Earned certifications
Activity Summary	Engagement metrics

Visual Representation

- Radar chart for quotient scores
- Progress bars for course completion
- Timeline for achievements
- Badge display for certificates

8. Report Generation

8.1 API Endpoints for Reports

Endpoint	Report Type	Access Level
GET /api/results/user/:id	Assessment results	User/Admin
GET /api/courseenrollments/user/:id	Course progress	User/Admin
GET /api/tickets/stats/summary	Ticket statistics	Admin
GET /api/activitylogs/user/:id	Activity logs	Admin

GET /api/students/stats	Student statistics	Admin
-------------------------	--------------------	-------

8.2 Export Formats

Format	Use Case	Implementation
JSON	API response	Native
PDF	Printable reports	Future enhancement
CSV	Data analysis	Future enhancement
Excel	Spreadsheet analysis	Future enhancement

9. Data Visualization

9.1 Available Charts

Chart Type	Use Case	Component
Radar Chart	Big Five personality	Big5RadarChart.jsx
Progress Bar	Course completion	Built-in
Pie Chart	Category distribution	Various
Line Chart	Trend analysis	Future
Bar Chart	Comparison	Future

9.2 Dashboard Widgets

Widget	Data Displayed
Assessment Status	Completed/Pending tests
Course Progress	Enrolled courses status
Vision Board	Personal goals display

Activity Feed	Recent activities
---------------	-------------------

10. Report Access Control

10.1 Permission Matrix

Report Type	Student	Teacher	Admin
Own Assessment Results	✓	-	✓
Own Course Progress	✓	-	✓
Own Activity Log	✓	-	✓
Class Reports	-	✓	✓
All User Reports	-	-	✓
Ticket Statistics	-	-	✓
System Analytics	-	-	✓

10.2 Data Privacy

- Users can only view their own data
- Teachers can view assigned class data
- Admins have full access with audit logging
- All report access is logged

11. Future Enhancements

11.1 Planned Reports

Report	Description	Priority
Comparative Analysis	User vs. cohort comparison	High

Trend Analysis	Progress over time	High
Predictive Analytics	Success prediction	Medium
Export to PDF	Downloadable reports	High
Scheduled Reports	Automatic generation	Medium
Custom Reports	User-defined parameters	Low

11.2 Analytics Dashboard

- Real-time user activity monitoring
- Automated anomaly detection
- Performance benchmarking
- Cohort analysis

Document End

This document outlines all reporting capabilities within the SMAART Minds platform. For technical implementation details, refer to the Technical Functionalities Document.
